

Acceleration/Early Withdrawal

Students who are scheduled to make a Permanent Change of Station (PCS) between December 11, 2008 (earliest date that a student can withdraw from school and receive credit for the first semester), and January 22, 2009 (End of First Semester for students), may request to “accelerate” and receive credit for the first semester. In order to do so, a sponsor must submit a request, in writing, to the school as soon as possible and preferably within 30 days of the proposed acceleration date. The student must attend school for a full day on December 11, 2008, in order to receive credit for the first semester. Upon receipt of a request for “acceleration”, teachers will provide assignments and/or projects that must be completed prior to withdrawal from school. A sponsor may request for his or her child or children to accelerate at any date between December 11, 2008 and January 22, 2009. This policy only applies to sponsors and students who are PCSING. The earliest that a child may accelerate and receive credit for the second semester is May 14, 2009. If you have any questions or concerns regarding this policy, please contact the Main Office at the school or your child’s teacher.
